

Airl is a vital part of my life as well as my 17 year old son's. We both listen exclusively to Airl because other radio stations play music that is questionable, degrading or down right vulgar. We enjoy Airl's format and are a financial supporters of the station to help ensure that our community will continue to have Airl locally. If Airl was displaced by this proposed change, we would not be able to enjoy Christian contemporary radio at all which would be a great disservice to my family and several other family friends. My oldest son lives in Dallas where they do not have Airl and he greatly misses the positive, family oriented radio that Airl provides. He is 'jealous' that a smaller city like Amarillo has something that they do not have in the Dallas area. Airl gives kids as well as some adults an outlet for listening to Christian music that is contemporary, up beat and uplifting but still has an edge to it. This proposed change would have a devastating effect on me personally and on my child as well.
